**Alice Covell : 2006 Coding Workbook for the Physician's Office** before purchasing it in order to gage whether or not it would be worth my time, and all praised 2006 Coding Workbook for the Physician's Office:

This workbook contains coding exercises that reference each section of the CPT-4 and ICD-9-CM coding manuals. Exercises requiring HCPCS Level II codes are also provided. Condition and procedure statements in the exercises reflect the current annual editions of the coding manuals. By completing the exercises, you will expand your medical vocabulary and increase your coding skills, and will learn to code only what the documentation supports. Also included are the Center for Medicare and Medicaid Services (CMS) guidelines for diagnosis coding and reporting by physicians. You will need current CPT-4, ICD-9-CM, and HCPCS coding manuals to complete the exercises.

Yes, I would consider adopting this book for my program. . I think the author's writing style is great. Alice Covell is clear and concise and well-organized. About the Author Alice Covell, CMA-A (AAMA), RMA, CPC, is a partner with Covell and Harwood Company, a Kalamazoo, Michigan-based consulting firm. She consults with physician practices and healthcare facilities on coding issues, billing compliance, and office management. Ms. Covell is also popular presenter on coding issues at seminars.
