This workbook contains coding exercises that reference each section of the CPT and ICD-9-CM coding manuals. Exercises requiring HCPCS Level II codes are also provided. Condition and procedure statements in the exercises reflect the current annual editions of the coding manuals. By completing the exercises, you will expand your medical

vocabulary, improve coding skills for the physician's office, and learn to code only what the documentation supports. Also included are the Center for Medicare and Medicaid Services (CMS) guidelines for diagnosis coding and reporting by physicians. Learners need current CPT, ICD-9-CM, and HCPCS coding manuals to complete the exercises.

About the Author Alice Covell, CMA-A (AAMA), RMA, CPC, is a partner with Covell and Harwood Company, a Kalamazoo, Michigan-based consulting firm. She consults with physician practices and healthcare facilities on coding issues, billing compliance, and office management. Ms. Covell is also popular presenter on coding issues at seminars.
