Excellent Resouce ManualBy Frances D.I purchased the spiral bound version of the 2010 Healthcare Common Procedure Coding System (HCPCS) Level II manual on December 12, 2010 it was on sale for the price of \$48.97 the regular price was \$99.95.It was one of the required manuals I had to buy because I was going to take a medical coding class at a community college.I used this 2010 HCPCS Level II manual frequently for coding exercises I had to submit in class and received an excellent score due to this user friendly spiral bound, full color format on the Netter Anatomy artwork is very descriptive and easy to understand.This handy reference guide has helped me to find the HCPCS Level II codes quickly and code the online insurance claims accurately and to determine which codes are payable to the Hospital Outpatient Prospective Payment System. It has helped me to ensure proper payment and appropriate reimbursement.Durable Medical Equipment, prosthetics,

orthotics, and supplies indicators has helped me to quickly identify supplies to report durable medical equipment to medical third-party payers. The Table of Drug Code annotations has helped me to quickly identify brand name drugs as well as drugs that appear on the National Drug Class directory and other FDA approved drugs. The Appendices show the latest CMS (Centers for Medicare and Medicaid Services), Physician Quality Reporting Initiative, National Allowable Rates, and National Correct Coding Initiative standards to ensure compliance with current coding regulations.

I ordered this book and i love it. Everything that i order, no matter what it is i always get it in a timely manner. I have received this book just in time to take my exam. It was a new book and when i received it, it was well wrapped so that it would not get damaged. It came to me in great condition. Thanks ! I will continue to order my books and all of my items from you. I am very pleased with this website.

Great book!! This helped me get all the codes I needed to file the proper claims. This also helped with updating us on new codes we could use for things.

Elsevier and the American Medical Association have partnered to co-publish this HCPCS Level II reference by Carol J. Buck! Providing the latest Healthcare Common Procedure Coding System (HCPCS) codes in an easy-to-use, spiral-bound, full-color format, 2010 HCPCS Level II Professional Edition helps you code quickly, accurately, and efficiently and optimize reimbursement. This professional edition has been enhanced with new coding tools to help you ensure compliance with coding regulations and confidently locate information on specific codes, manage supply reimbursement, report patient data, and more. Full-color design enables you to locate and identify codes with speed and accuracy. Convenient spiral binding provides easy access in practice settings. At-a-glance listing of all new, revised, and deleted codes for 2010 helps you quickly identify changes. UNIQUE! Color-coded Table of Drugs similar to the ICD-9-CM drug table helps you find specific drug information with ease. Distinctive symbols help you quickly identify all new, revised, reinstated, and deleted codes. UNIQUE! Full-color illustrations reinforce your understanding of conditions, complications, and procedures for increased accuracy in reporting. Drug code annotations help you quickly and easily identify brand name drugs as well as drugs that appear on the National Drug Class (NDC) directory and other Food and Drug Administration (FDA) approved drugs. Inclusion of American Dental Association (ADA) CDT Dental Codes streamlines coding with complete access to all codes in one place. Updated Internet Only Manual (IOM) section provides essential information on carrier-specific and Medicare-specific regulations to ensure coding accuracy. Companion Evolve Resources website keeps you updated with the latest code changes. Affordable pricing provides unparalleled value at a reasonable cost. ASC payment and status indicators help you determine which codes are payable in the Hospital Outpatient Prospective Payment System to ensure accurate reporting and appropriate reimbursement. Coding Clinics drawn from American Hospital Association HCPCS citations help you find expanded information about specific codes and their usage. Age/Sex alert symbols identify codes for use only with patients of a specific age or sex to ensure accurate reporting. Durable medical equipment, prosthetics, orthotics, and supplies indicators help you easily identify supplies to report to durable medical third-party payers. Quantity feature highlights the units of services allowable per patient, per day as listed in the Medically Unlikely Edits (MUEs) for enhanced accuracy on claims. UNIQUE! Full-color Netter anatomy artwork clarifies complex anatomic information to help you appropriately code related procedures. Appendices reflecting the latest CMS, PQRI, NAR, and NCCI standards help you ensure compliance with current coding regulations.
