After a few lessons, I realized the book was missing pages 774 - 823 (medical codes 040-207). I started to access the missing codes online for ICD-9-CM, since I really couldn't take the time to return the book and wait for a complete copy to be shipped. Going through all of that would put me behind in the course. I can't imagine why anyone would

take out a whole section of the book. They need to make sure these books are complete.0 of 0 people found the following review helpful.
