Lisa Rae Roper : 2010 Practice Test for the American Academy of Professional Coders CPC Exam: JustCoding.coms Training Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised 2010 Practice Test for the American Academy of Professional Coders CPC Exam: JustCoding.coms Training Guide:

0 of 0 people found the following review helpful. I was a bit disappointed as I expected a more comprehensive test.By Linda ReedNot enough pertinent material included. More emphasis on the more complicated procedures. More test questions should be included. Test didn't reflect enough of actual test questions.0 of 0 people found the following review helpful. Buyer BewareBy sam BallamThis pamphlet is overpriced one exam for almost \$50?!!! best to buy the revision book with several cases and study the guidlines. Overpriced and not worth the money. Also the caliber of the

questions are not the best, not very challenging. DO NOT BUY 14 of 14 people found the following review helpful. CPC Practice Exams Book By Ellen I have just completed a Medical Billing and Coding class and I am scheduled to take the CPC Exam in two weeks. It's a very difficult and long exam and we were advised to keep taking as many practice exams as we could. The reason I picked this particular book was that it has a full sample test (150) questions with an answer key. I also was happy that it is a 2010 practice exam, similar to the one I will be taking. Any future coders, it's a really good way to practice for the CPC Exam.

Nervous about taking the exam for your CPC certification? Don't be! The team at JustCoding.com presents this 150-question practice exam that you can use to study for the American Academy of Professional Coders (AAPC) CPC exam. The practice exam mimics the actual CPC exam in a number of ways. It includes 150 multiple-choice questions (plus 18 detailed, operative-type questions) and features questions based on material covered in HCPro's Certified Coder Boot Camp, which also prepares students to take the CPC exam. The exam, written by Certified Coder Boot Camp instructor Lisa Rae Roper, covers specific topics on which you'll be tested for your CPC credential, including: Surgery and integumentary system Musculoskeletal system Respiratory system Digestive system Urinary system Nervous, eye and ocular, and auditory systems Evaluation and management Anesthesia Radiology Laboratory and pathology Medicine Medical terminology Anatomy ICD-9-CM and HCPCS Level II Coding guidelines Practice management

About the Author Lisa Rae Roper is an adjunct instructor with HCPro, Inc. She has 25 years of experience in business management, coding, and healthcare consulting. She operates an independent consulting firm where she focuses on projects in business, management and training with universities, state and local health departments, specialty physician offices, hospital outpatient facilities, and surgical centers. She is the Coordinator of Allied Health and Safety for the Missoula County Public Schools Adult Education Division, where she developed and implemented training programs. She also develops curricula and serves as the lead instructor for coding and billing courses. We wish you good luck as you prepare to earn your CPC credential. Your colleagues at JustCoding.com are proud to be part of your practice team and look forward to helping you succeed in the years to come.
