**Neal H. Atebara MD : 2012-2013 Basic and Clinical Science Course, Section 3: Clinical Optics** before purchasing it in order to gage whether or not it would be worth my time, and all praised 2012-2013 Basic and Clinical Science Course, Section 3: Clinical Optics:

Discusses current applications of optical phenomena, including the optical foundations of lasers, spectacles, IOLs and

refractive surgery. Presents optics of the human eye; basic concepts of geometric optics; ophthalmic instruments and contact lenses. Discusses vision rehabilitation from the epidemiology of vision impairment, classification of visual function deficits, patient assessment and low vision management. Up to 15 AMA PRA Category 1 Credits (TM). Last major revision 2009-2010.
