**Alice Covell : 2014 Coding Workbook for the Physician's Office (with Cengage EncoderPro.com Demo Printed Access Card)** before purchasing it in order to gage whether or not it would be worth my time, and all praised 2014 Coding Workbook for the Physician's Office (with Cengage EncoderPro.com Demo Printed Access Card):

0 of 0 people found the following review helpful. I was expecting a little bite More out of this ...By Pen NameI was expecting a little bite More out of this book. If your looking for some addl coding practice this is not the book. This book is for beginners.0 of 0 people found the following review helpful. This workbook made coding tedious. Also it does not help that the workbook ...By CustomerThis workbook made coding tedious. Also it does not help that the workbook came out before we had it in class. So of course codes from 2013 would not match 2014. But even then, the new versions of codes are more tedious to find then before.0 of 0 people found the following review helpful. I think

there would be a better way to teach you how to utilize this book ...By JackieI think there would be a better way to teach you how to utilize this book by going one part a time. For example, if you have a tonsillectomy do 3 codes in a row to educate you how to code the tonsils so you get better familiar with the outline of how the CPT 2014 book works, especially when there is a need for a modifier. Also, there are answers in the back, of course I did not realize until half way through my college course. It is a great reference when you get stuck.

Succinct, accurate, and flexible, 2014 CODING WORKBOOK FOR THE PHYSICIAN'S OFFICE is the ideal companion to any medical coding textbook. Whether you are preparing for the AAPC certification exam, the approaching transition from ICD-9-CM to ICD-10-CM, or simply expanding your medical vocabulary, this workbook helps you reach your goals. Workbook sections include complete discussions on coding rules, insurance requirements, the Center for Medicare and Medicaid Services (CMS) guidelines, and coordinate with the latest releases of HCPCS, CPT, and ICD coding manuals. Designed to boost proficiency quickly, 2014 CODING WORKBOOK FOR THE PHYSICIAN'S OFFICE presents challenging critical-thinking scenarios, certification-style questions, and a variety of exercises. This best-selling workbook also includes a free trial of Optum's Encoder Pro, an easy-to-use tool that gives you an edge with code lookups, compliance, billing, and more!

This supplemental text is concise and focused on practice. Exactly what students need to learn to code. They are presented logically, which flows with both the CPT and ICD-9 books. The comparisons between ICD-9 and ICD-10 will satisfy the preparation needed to prepare students and current medical billers for the conversion. The content is complete and will greatly encourage success on the CPC." "Excellent as a supplemental text to give students a chance to practice coding skills and can be used to complete the required CAAHEP competencies." About the Author Alice Covell, CMA-A (AAMA), RMA, CPC, is a partner with Covell and Harwood Company, a Kalamazoo, Michigan-based consulting firm. She consults with physician practices and healthcare facilities on coding issues, billing compliance, and office management. Ms. Covell is also popular presenter on coding issues at seminars.
