Optum360 : 2015 National Fee Analyzer before purchasing it in order to gauge whether or not it would be worth my time, and all praised 2015 National Fee Analyzer:

0 of 0 people found the following review helpful. Five Stars By GERMet expectations.

National Fee Analyzer provides physician practices with three percentiles of charge data and the average Medicare fee for fee schedule development, competitive analysis and contracting purposes. This comprehensive tool can help you estimate competitive fees and reimbursement for all areas of the country. A comprehensive introduction explains issues to be aware of for optimizing revenue when coding, contracting, and evaluating and setting fee schedules. Key Features and Benefits: Now includes three percentiles of charge data. Use national 50th, 75th and 90th percentile charge data to discover revenue opportunities by comparing your fees with actual average charge data. Data from real-life claims from the FAIRHealth database of 800 million charge records. Develop and help maintain competitive fees while having defensible data during contract negotiations. Geographic conversion factors. Adjust national averages for specific geographic areas across the country with one resource. Charge information by CPTreg; code. Be prepared when negotiating contracts with insurance companies. National Medicare fees and relative values. Stay on top of your fees with national Medicare fee schedule benchmarks. Stay up-to-date on coding and reimbursement issues. Coding and billing tips for both commercial and Medicare claims. CPTreg; is a registered trademark of the American Medical

Association.
