From Totality Books : A Cancer Therapy - Results of Fifty Cases and The Cure of Advanced Cancer By Diet Therapy: Fourth Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised A Cancer Therapy - Results of Fifty Cases and The Cure of Advanced Cancer By Diet Therapy: Fourth Edition:

In 1958, based on thirty years of clinical experimentation, Dr. Max Gerson published this medical monograph. This is the most complete book on the Gerson Therapy. Dr. Gerson, who developed the Gerson Therapy, explains how the treatment reactivates the body's healing mechanisms in chronic degenerative diseases. The book incorporates extensive explanation of the theory with scientific research and the exact practice of the therapy, as well as a presentation of fifty documented case histories.
