From LWW : A Comprehensive Review for the Certification and Recertification Examinations for Physician Assistants: Published in Collaboration with AAPA and APAP ... for Certification/Recertification Exams) before purchasing it in order to gage whether or not it would be worth my time, and all praised A Comprehensive Review for the Certification and Recertification Examinations for Physician Assistants: Published in Collaboration with AAPA and APAP ... for Certification/Recertification Exams):

0 of 0 people found the following review helpful. best friendBy CefThis is a great study companion. Write in the margins, highlight and save it for a reference later. This is an excellent adjunct to studying for the boards. I would only use this, but it will help organize and expand your study efforts.0 of 0 people found the following review helpful. Did it's purposeBy Lauren M GrecoThe book was in OK condition, but it didn't have the CD, which was vital to the review. There were markings, which is understandable. Not bad, but not great.0 of 0 people found the following review helpful. A Comprehensive Review for the Certification and RecertificationBy dona saboIWell written explanation and guide to practice study. Questions are advanced and with explanations for each answer. one of the study guides that will prove helpful in preping for the cert. exam.

There's no better way to prepare for the NCCPA examinations than with the only review book developed and endorsed by the American Academy of Physician Assistants (AAPA) and the Association of Physician Assistant Programs (APAP). An ideal study tool and clinical reference, this comprehensive resource features review material, test questions, and detailed explanations covering the critical content areas on the certification (PANCE) and recertification (PANRE and Pathway II) examinations. This new edition includes a 300 question pre-test and 300 question post-test CD-ROM that simulate the NCCPA Exams and incorporate the GRADRAT self-assessment exam—the premier tool developed by experienced faculty and the APAP to prepare clinicians for recertification. Also new to this edition: an infectious disease chapter and expanded coverage of pediatrics, geriatrics, and surgery.
