A Day In The Life Of An Ambulance Driver is a collection of stories told from the viewpoint of the author during his time as an EMT, paramedic and Navy Corpsman. These stories are based on real life situations and told with attention to detail in an attempt to help the reader visualize the experience for him or her self. The author has over 20 years of experience in the emergency medical field. He chose the stories included in this book to show the broad range of medical situations that happen during the course of a career. Many of the men and women that have served in the EMS service, whether it was in an active war zone or in areas of terror attacks, have witnessed horrors much worse than are portrayed in these pages. They have placed their lives on the line for those that they helped. This is not to make light of or belittle any of the work done by these brave men and woman. Please take a moment to pray for those that have been hurt physically and mentally thought their service. There are many charities out there that do great work for police, fire, EMS and military personnel. Ten percent of all proceeds gotten from the sales of this book will be donated to the Wounded Warrior Foundation.
