David Byfield BSc(Hons) DC MPhil FBCA FCC FFEAC, Stuart Kinsinger BSc DC FCCRS(c) : A Manual Therapist's Guide to Surface Anatomy Palpation Skills, 1e before purchasing it in order to gage whether or not it would be worth my time, and all praised A Manual Therapist's Guide to Surface Anatomy Palpation Skills, 1e:

The first book on surface anatomy and palpation specifically for students of chiropractic and the manual therapies. Designed to help undergraduates with clinical observation, diagnostic palpation and observational skills, this textbook provides a systematic and practical approach to the fundamentals of physical examination and manual therapeutics.Uniquely combines the development of palpation skills with the illustration of surface anatomy

landmarksFacilitates understanding of the relationship between anatomical landmarks and palpatory identificationAimed at students developing early physical examination skills.

About the AuthorDavid Byfield graduated from the Canadian Memorial Chiropractic College, Toronto, Canada in 1979 and has since been in private practice and chiropractic education. He is currently a Principal Lecturer, Head of the Chiropractic Division in the Department of Professional Education and Service Delivery, the Faculty of Health, Sport Science and Head of the Welsh Institute of Chiropractic at the University of Glamorgan.David holds a BSc (Hons) degree in Biology from the University of Western Ontario, London, Canada (1974) and an MPhil degree from Southampton University, Southampton UK (1998). David holds Fellowship status with the College of Chiropractors and the Faculty of Rehabilitation and Chiropractic Orthopaedic, Associate Member of the Sports Exercise Faculty, Fellow of the British Chiropractic Association and Founding Fellow of the European Academy of Chiropractic. He written two popular chiropractic textbooks (Chiropractic Manipulative Skills, 1st ed 1996 2nd ed 2005 A Manual Therapists Guide to Surface Anatomy and Palpation Skills, 2002) and in addition has also published a number of scientific papers in the peer-reviewed literature and a number of book chapters covering diagnostic palpation, spinal manipulation, low back syndromes and functional rehabilitation. David Byfield is also an invited speaker at a number of professional and interdisciplinary meetings and conferences worldwide. He is currently an elected member of the General Chiropractic Council in the UK and currently sits on their Education Committee and Communications Advisory Group.
