From imusti : ABC of Major Trauma before purchasing it in order to gage whether or not it would be worth my time, and all praised ABC of Major Trauma:

0 of 0 people found the following review helpful. Excellent bookBy Cliente This is an excellent review of trauma; as an emergency physician, I can state that it's great for a quick reference at work, and also as a great study source.

Prehospital care is a growing area in medicine, and emergency treatments are becoming more sophisticated as the potential to save lives grow. The fourth edition of this ABC has been thoroughly updated and includes new chapters on nuclear and biological emergencies. Each chapter gives concise and clear guidance and is accompanied by excellent photographs and diagrams. Edited and written by leading UK trauma authorities, this is a truly comprehensive and practical book for everyday use by emergency medicine staff, nurses, hospital doctors, paramedics, and ambulance services. This title is also available as a mobile App from MedHand Mobile Libraries. Buy it now from iTunes, Google Play or the MedHand Store.

This remains a worthy introduction to an important clinical problem for generalists and students. (Doodys, 28 June 2013) From the Back Cover Major trauma and prehospital care is a growing area in medicine, and emergency treatments are becoming more sophisticated as the potential to save lives grows. This fourth edition of the long established and bestselling ABC of Major Trauma is a comprehensive guide to the management of the multiply injured patient during the initial hours after injury. Thoroughly updated throughout, and including new material on trauma management in the developing world, it provides concise and clear guidance with accompanying photographs and diagrams. Edited and written by leading trauma authorities, this is a truly accessible and practical book for everyday use by emergency medicine staff, nurses, hospital doctors, paramedics, and ambulance services. About the Author David Skinner, John Radcliffe Hospital, Oxford, UK Peter Driscoll, Department of Emergency Medicine, Hope Hospital, Salford, UK
