American Academy of Orthopaedic Surgeons (AAOS) : Advanced Emergency Care and Transportation of the Sick and Injured: Student Workbook. before purchasing it in order to gage whether or not it would be worth my time, and all praised Advanced Emergency Care and Transportation of the Sick and Injured: Student Workbook.:

2 of 2 people found the following review helpful. Advanced Emergency Care and Transportation of the Sick and Injured/Workbook By Virginia B. Exactly what I expected, The workbooks that go with the textbook are very useful. It has different types of activities geared toward each chapter, multiple choice, short answers, fill in the blank, crosswords, etc. The "scenario" type activity in some of the chapters is very useful, you have to fill in the different areas of the reports from dispatch, run reports, patient care and post run. Good practice on the reports as well as critical thinking. 1 of 1 people found the following review helpful. Advanced Emergency Care and Transportation of the Sick and Injured Student Workbook By lovewbug Advanced Emergency Care and Transportation of the Sick and Injured Student Workbook. This is the workbook that goes along with the Advanced Emergency Care and Transportation of the Sick and Injured book. In some places depending on where you live this workbook is required with particular classes that you may take. This is a very good workbook with or without the class. 0 of 0 people found the following review helpful. Five Stars By Bonita E Owens HELPED WITH SCHOOL

The Student Workbook contains exercises to reinforce what you will learn in both the Advanced EMT textbook and the classroom. The exercises provide comprehensive reinforcement of the material presented in the National EMS Education Standards and Instructional Guidelines for Advanced Emergency Medical Technician (AEMT). You will find a variety of exercises for each chapter, including: Multiple Choice - Numerous multiple-choice questions prepare you for exams. Ambulance Calls - Scenarios help you develop your decision-making skills by describing emergencies and challenging you to come up with solutions. Skill Drills - Test your skills with photo jumbles and caption fill-ins. Place photos in the correct order to test your knowledge of a skill and ensure that you know all of the steps of the skill by filling in the captions. Labeling - Cement your mastery of difficult concepts with illustration labeling activities. Word Fun - Quiz your knowledge of terminology and spelling with these crossword puzzles. And More - True/false, fill-in-the-blank, short answer, and matching! In case you have a question about an exercise, page references to Advanced EMT are provided for every question. Perforated pages make it easier for you to hand in homework assignments.
