Presented in outline format, this combination study guide and workbook is designed to prepare the individual for the Advanced Practitioner Registry Exam offered by the National Board for Respiratory Care (NBRC). Based on the examination matrix provided by the NBRC, the text prepares the reader for both the written and clinical simulation exams. Included in the text are chapter pretests with answers and explanations, a 100 question post-test resembling the actual written registry exam, and 3 clinical simulations to familiarize the reader with this unique type of question.
