Robert Wyrod : AIDS and Masculinity in the African City: Privilege, Inequality, and Modern Manhood before purchasing it in order to gauge whether or not it would be worth my time, and all praised AIDS and Masculinity in the African City: Privilege, Inequality, and Modern Manhood:

AIDS has been a devastating plague in much of sub-Saharan Africa, yet the long-term implications for gender and sexuality are just emerging. *AIDS and Masculinity in the African City* tackles this issue head on and examines how AIDS has altered the ways masculinity is lived in Uganda—a country known as Africa's great AIDS success story. Based on a decade of ethnographic research in an urban slum community in the capital Kampala, this book reveals the persistence of masculine privilege in the age of AIDS and the implications such privilege has for combating AIDS across the African continent.

"*AIDS and Masculinity in the African City* will be of great interest to anthropologists, sociologists, gender scholars and global/public health practitioners, but the book is also a compelling must-read for people concerned with and interested in urban ethnography, HIV/AIDS, feminist theory and masculinities."
