From Brand: Amer Psychiatric Pub : Allies and Adversaries the Impact of Managed Care on Mental Health Services before purchasing it in order to gage whether or not it would be worth my time, and all praised Allies and Adversaries the Impact of Managed Care on Mental Health Services:

This book addresses the impact of managed care on clinical practice. In each chapter a specific area of practice is discussed by two industry leaders -- a clinician and managed care executive. Also presented is a critique of managed care from the perspective of patients and families. By promoting dialogue and increasing the level of understanding between mental health care providers and managed care reviewers, Allies and Adversaries should help both to better serve patients and themselves, and to effectively contribute to the shape of the emerging mental health care system.

Allies and Adversaries delineates, in a subjective and highly readable format, the aspirations and obstacles in an evolving market... This book offers something of a gameplan to achieving a united political front among people who often disagree on how to achieve the ubiquitous, and increasing distant, goal of universal coverage. Open Minds A useful and comprehensive review of managed care is provided here in a number of aspects, including clinical,

provider, and family, each from the perspectives of a clinician and a managed care executive. Readings: A Journal of s
and Commentary in Mental HealthAbout the AuthorRobert K. Schreter, M.D., is in private practice. He is also
Medical Director of Psych Services in Baltimore, Maryland, and Assistant Professor of Psychiatry at Johns Hopkins
Medical School, in Baltimore, Maryland. Steven S. Sharfstein, M.D., M.P.A., is Medical Director and CEO of The
Sheppard and Enoch Pratt Hospital in Baltimore, Maryland, and Clinical Professor of Psychiatry at the University of
Maryland Medical School in Baltimore, Maryland. Carol A. Schreter, M.S.W., Ph.D., is an authors' editor and
freelance writer on health and aging, based in Baltimore, Maryland.
