David R. Johnson : Every Minute Counts: Making Your Math Class Work before purchasing it in order to gage whether or not it would be worth my time, and all praised Every Minute Counts: Making Your Math Class Work:

1 of 1 people found the following review helpful. A Good Read!By David M. EtzelThis book was recommended to me by my building principal. He came across it back when he was a new classroom teacher, and he mentioned it to me

when we were discussing student data and ways to improve our students' math performance. I have been teaching 6th grade math for the first time in several years after teaching reading and language arts. I have found many helpful tips in this book which I have put into practice in my room this year. I can hardly wait to read the sequel. 0 of 0 people found the following review helpful. Inciteful and easy to read By pb125807 As a pre-service teacher, this was an excellent book. It was full of helpful tips and advice for maximizing the limited amount of classroom time teachers have while helping all students achieve success (rather than just a few). I know I will go back to this book again and again when I start teaching. From personal experience, I would recommend this to any future math teacher or a first or second-year teacher. 1 of 1 people found the following review helpful. For me, the most influential and helpful guide for all subjects I used in teaching By Michael EI am not as thrilled with the follow up books. All good, but this is the gem that works in all subjects with a bit of thinking and adaptation. Saves time for the teacher. As important, it enhances effectiveness and helps student-center your approach in all the right directions. Buy it, love it, loan it around! Let's hope this rare gem never goes out of print!!

Learn how to make the most of the first minutes of class, ask the right questions in the right way, assign and correct homework efficiently, teach new material effectively and establish a practical notebook system.

About the Author Richard Danson Brown and David Johnson are Lecturers in Literature at the Open University.
