I finally went ahead and bought it as a gift for him and he absolutely loves it.1 of 1 people found the following review helpful. Absolutely excellentBy MaryDon't miss this book! It's absolutely excellent. I was surprised at how well-researched the text of this book is and, when I then glanced at the team of professionals who were consulted for the book, readily understood why it is so excellent. This book is chuck full of useful information in an easy-to-read and understand format that is also reasonably concise for each topic covered.Bravo! And please keep up the good work1 of

1 people found the following review helpful. Useful BookBy Sue MetzcarIt is easy to find articles in magazines and on the Internet on this topic or even see tips on TV. But this book is cheerful and easy to use because of the table of contents. So it is a good collection of advice for using food in your healing or prevention plan, and it is all in one place. I bought copies for my adult children as well.
