Sanduk Ruit, Geoffrey C. Tabin, Charles C. Wykoff : Fighting Global Blindness: Improving World Vision Through Cataract Elimination before purchasing it in order to gauge whether or not it would be worth my time, and all praised Fighting Global Blindness: Improving World Vision Through Cataract Elimination:

Unoperated cataract is the cause of millions of cases of visual impairment and blindness in poor populations throughout both the developing and the developed world. This wonderfully written volume shares the experiences of a team of surgeons who have demonstrated how the surgical procedures can be simplified and made more efficient, accessible, and far less expensive. It is a step-by-step manual to solving the problem where adequate surgeons can be

trained to follow suit.
