**Claudia R. Senesac, Mark Bishop : Finley's Interactive Cadaveric Dissection Guide** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Finley's Interactive Cadaveric Dissection Guide:

0 of 0 people found the following review helpful. EhhBy ealjktI needed to use this guide for a cadaver lab obviously, so I had little choice in whether I purchased the book or not. It was useful, but sometimes the video was so abbreviated that the HOW of some of the dissections was a little tricky to gather from what was accessible. Overall, it was money well spent, but I wish I had not had to purchase it. 1 of 1 people found the following review helpful. Wonderful resource!!!By Jean EClauette Finley was my instructor in a post-graduate physical therapy joint dissection program. I also had the privilege to be her teaching assistant for anatomy for one semester. I cannot say enough wonderful things about what a great teacher she is and what a valuable resource she has developed. (Not to mention, what a great person she is.) She put her considerable intellect and passion into teaching anatomy and other physical therapy classes and is one of the best teachers I have ever had. Over the years during her career as an anatomy instructor for the physical

therapy program at the University of Florida, she developed her own material to teach dissection. Now it is available to others in book form through this text and DVD that Dr. Senesac and Dr. Bishop have evolved from Ms. Finley's original material. I am thrilled that future generations of physical therapists across the country can benefit from her and their expertise! Jean Erdal PT, MHS

Finley's Interactive Cadaveric Dissection Guide is a step-by-step instructional text for cadaveric dissection. The dissection is presented regionally on the body and includes the trunk, extremities, face, neck, thorax, abdomen and viscera. Other dissections include all joints of the extremities, a spinal laminectomy, and dissections of the larynx, pharynx, TMJ, and pelvic anatomy for both male and female. Each section is illustrated using line drawings, digital still images. Each chapter of the text includes illustrations and still color photos of the steps. Each new textbook includes a DVD. \*Please note: Electronic/eBook formats do not include access to the DVD.

About the Author Mark Bishop lived in Okinawa for more than fifteen years, studying with, interviewing, and writing about many of the best-known Okinawan martial arts masters. Married to the daughter of a prominent Okinawan religious leader, he has been allowed unusual access to the inner teachings and opinions of many of the masters he has encountered. Upon his return to England, he established himself as an in-demand martial arts lecturer and teacher. He is the author of *Zen Kobudo* (Tuttle, 1996) and writes extensively for martial arts magazines. He lives in Sussex, England.
