**Edward T. Dickinson : Fire Service Emergency Care** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Fire Service Emergency Care:

Textbook for training EMT-Basics who are members of the fire service. Complies with the latest U.S. DOT EMT-Basic National Standard Curriculum and is validated by the International Fire Service Training Association. Includes a chapter on emergency incident rehabilitation. Extensive real-life and clinical photography and color illustrations.

From the Back Cover This is the first EMT-Basic book written specifically for EMT's who are members of the fire service and the only EMT-Basic book validated by IFTSTA (International Fire Service Training Association). This

book complies with the latest U.S. DOT National Standard EMT Basic Curriculum and presents its components with an awareness of the unique situations in which firefighter-EMT's work. Detailed "Transition of Care" procedures are presented in a separate chapter and throughout the book for EMT's who work as part of a tiered response system. "Company Officer's Notes" throughout the book highlight safety and patient care considerations for officers and personnel in charge at emergency scenes. This is the only EMT-Basic book to include a chapter on Emergency Incident Rehabilitation Firefighter-EMT's.
