Due to this book I believed that I was prepared for my exam and have done very well. I wish I could give you a grade but I'm waiting for the results still. I was required to score very high on the exam in order to proceed to the next phase of testing. I'm still using this book to help me prepare for the next test. I fell I did well enough to take the next phase of the test due to this book. Respectfully Submitted LT. Michael Daddona
