ANGLE : Firefighting Strategies And Tactics before purchasing it in order to gage whether or not it would be worth my time, and all praised Firefighting Strategies And Tactics:

0 of 0 people found the following review helpful. knowledge is powerBy Jackmackif you fight fires, you will find useful information in this book written by experienced fire officers. This book explores your plan (strategy) and your actions to carry out your plan(tactics). Dependent on the type of building/area on fire, fire will react differently based on building construction. While fire is the enemy , the building is the battleground and responding firefighters must be familiar with the battleground to wage a sucessful battle. Whether the occupancy is a private home, multiple dwelling, commercial building etc., tactics can differ in locating, confining and extinguishing the fire. This is explained in detail through 20 chapters(456pgs.) There are chapters on Size up,Incident Command,Safety, Wildland fires,Place of assembly fires and vehicle fires. The last section contains hypothetical fires in single family dwellings, multi-family and commercial buildings. There is an extensive glossary on terms used and useful charts, pictures and Appendix. Whether you are professional or Volunteer firefighter, urban or suburban, you will increase or refresh your knowledge.

Recommended. 0 of 0 people found the following review helpful. Everything I Had Hoped For By Caleb Hansen My expectations and the product description were perfectly met. I am totally satisfied with my purchase. If you need this book for a class, this is a great, simple, and cheap way to go. Do it! 0 of 0 people found the following review helpful. Overall good read, good info. By JP Rebour Reading it for a promotional exam. Not a bad book, but could have been 125 pages shorter. Very repetitive in some areas and just breezed through others. Overall very informational.

Now in its Third Edition, *Firefighting Strategies and Tactics* is the fire services most complete and comprehensive strategies and tactics resource available for fire service professionals. This textbook offers clear, systematic guidance on how to take control of the fireground even under the most adverse conditions. In addition to wildland fires, the Third Edition covers best practices to safely and effectively manage fires in residential dwellings, commercial buildings, high-rises, places of assembly, and vehicles. *Firefighting Strategies and Tactics, Third Edition* features: Complete coverage of the Fire and Emergency Services Higher Education (FESHE) Strategies and Tactics model curriculum. New and improved chapter organization, including a new chapter dedicated to Pre-Fire Planning. End-of-chapter case studies that help students apply what they have learned.

About the Author James Angle is Fire Chief for the Palm Harbor Fire Rescue Department in Pinellas County, Florida with 35 years of experience in firefighting and emergency services in departments large and small. An adjunct faculty member at St. Petersburg College in the Fire Science and Public Safety Administration programs, he has taught at the community college, university, and fire academy levels for 25 years. Chief Angle is a past member of the Florida Employment Standards and Training Council, former president of the Pinellas County Fire Chief Association, and was named Florida's Fire Chief of the Year for 2010/2011. Currently the legislative co-chair for the Florida Fire Chiefs Association, Chief Angle has a Master's Degree in Business and Bachelor's Degree in Fire Science and Safety Engineering. David Harlow is currently the Eastern Region Fire Division Manager for Rimkus Consulting Group. He retired as a Division Chief for the Fairborn Fire Department in suburban Dayton, Ohio, and formerly served as Fire Chief in Lighthouse Point, Florida. An Executive Fire Officer, he has significant firsthand and research experience in fireground operations and incident command, and taught Fire Science and Safety Risk Management at Sinclair Community College. Mr. Harlow has an Associate's Degree in Fire Engineering, Bachelor's Degree in Fire Administration, and a Master's Degree in Urban Administration. Bill Lombardo is Training Chief for South Trail Fire Rescue in Florida. In addition to training and education responsibilities at the department and fire academy level, he serves on the Florida Firefighters Employment, Standards, and Training Council. Mr. Lombardo's expertise with incident command and initial fire scene operations stems from a long career as an engine company lieutenant in response areas comprised of dwellings, commercial buildings, mid-rise complexes, and the wildland urban interface. He is an Executive Fire Officer graduate, and holds an Associate's Degree in Fire Science and a Bachelor's Degree in Management. Mr. Lombardo will complete his Master's Degree in Administration in 2012. Craig Maciuba is the Division Chief of Personnel and Administration for Palm Harbor Fire Rescue in Florida. He also serves as Commander of the Pinellas County Hazardous Materials Response Team. Broad experience in incident command, initial fire scene operations, and hazardous materials operations informs his many educational and training responsibilities at the fire department and fire academy levels. Mr. Maciuba is an Executive Fire Officer and holds a Bachelor's Degree in Public Safety Administration. Michael Gala is a Fire Department Captain with noteworthy experience as a fire officer for the renowned FDNY. Especially well-versed in engine and truck company functions, and operations in multi-story buildings, his teaching experience includes training fire service personnel at the New York City Fire Department Training Academy. Mr. Gala is currently assigned to one of the busiest ladder companies in New York City. He holds a Bachelor's Degree in Fire Service Administration and a Master's Degree in Protection Management.
