Latha Ganti M.D., Matthew S. Kaufman MD : First Aid for the Emergency Medicine Clerkship, Third Edition (First Aid Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised First Aid for the Emergency Medicine Clerkship, Third Edition (First Aid Series):

2 of 2 people found the following review helpful. Issues with the E-Reader VersionBy CustomerThis book is frustrating. I bought it for my kindle reader and I believe there might be an error in coding of the e reader. My largest gripe is that every time the book tries to use an up or down arrow to indicate "increases" or "decreases", the arrow is backwards. It uses these all over the book and its difficult for me to remember to flip it mentally every time. Additionally there are a ton of spelling and grammatical errors throughout the book. I attached an example. I really hope they fix this.3 of 3 people found the following review helpful. Solid review for a future EM docBy SSodhiAs

someone who's going into EM I decided to be an overachiever getting an EM primary textbook (Tintinalli's) before I started my 4th year rotation. That didn't go very far before I realized it was long, hard and I'd not finish it in a year-leave alone a month. I then bought this which was a solid review for the rotation covering most common pimp topics, most common test questions and most common ED scenarios. While I'm sure there were deficiencies of some kind there was nothing major that jumped out at me. 1 of 1 people found the following review helpful. MS-4By Willis KoBook is severely outdated; however basic principles aren't terrible for building a foundation for EM clerkships. Must supplement with various other resources to keep yourself updated or else you may be answering questions wrong in your clerkship. There is probably a better book out there other than this book and that isn't just cases or questions like case files or pretest respectively.

The emergency medicine clerkship survival guide in the super-effective First Aid format Written by students who just completed their clerkship First Aid for the Emergency Medicine Clerkship is a comprehensive high-yield review based on the clerkship's core competencies.
