Tao Le, Vikas Bhushan, Mae Sheikh-Ali, Kachiu Cecilia Lee : First Aid for the USMLE Step 2 CS before purchasing it in order to gauge whether or not it would be worth my time, and all praised First Aid for the USMLE Step 2 CS:

14 of 14 people found the following review helpful. Only thing you need. By StuEveryone (me too) worries a little over CS, but if you read this book, you will absolutely destroy that exam. The differentials and mock cases are good, but be sure to read some of the strategy sections. Insight into the grading is essential to passing. You can't just assume you're good in the clinic and expect to pass. Too many weird little requirements that have no bearing on real practice. 26 of 29 people found the following review helpful. All you need is this book! By Dr. RMG All you need for this exam. Just took my CS. Won't need more than 2 weeks part-time prep for the test. Go over the mini-cases twice and know the diagnostic studies to be ordered for each DDx. Don't bother with the Kaplan or other books. Practice your timing for both writing notes and patient interaction. 2 of 2 people found the following review helpful. Very useful for

the CSBy LEGOThere are not many resources for the STEP II CS. I suppose, it is because this book covers everything that one needs to know for the USMLE II CS.

The best-selling USMLE Step 2 CS review book--now completely updated to reflect the latest exam format! 44 full-length practice cases that simulate the real exam--including pediatric and telephone interviews as well as suggested closing statements for each case A revised and expanded set of minicases representing common complaints, designed to help you rapidly develop a set of differential diagnoses Updated content based on feedback from recent U.S. and international test takers Step-by-step strategies for interacting with standardized patients, including "difficult patients" Detailed descriptions of high-yield physical exam maneuvers that will win you points without costing time Time management advice to maximize your clinical encounters Proven study and exam strategies from students who passed the exam

About the AuthorTao Le, MD, MHS (Louisville, KY) is Assistant Clinical Professor of Pediatrics in the Division of Allergy and Immunology at the University of Louisville. He is also affiliated with the Division of Allergy and Immunology at The Johns Hopkins University School of Medicine.
