From Academic Press : Foodborne Diseases (Food Science and Technology) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Foodborne Diseases (Food Science and Technology):

The first textbook in the field, *Foodborne Diseases* is based on the author's ten years of teaching experience. On a chapter-by-chapter basis, it surveys all diseases transmitted by food and examines the evidence linking the "lifestyle" diseases, such as cancer and heart disease, to diet.
