Barry L. Scurran : Foot and Ankle Trauma before purchasing it in order to gage whether or not it would be worth my time, and all praised Foot and Ankle Trauma:

This clinically-orientated book surveys the full spectrum of traumatic conditions applicable to the foot and ankle. As well as covering fractures and dislocations it covers soft tissue injuries such as frostbite, burns, gunshot wounds, and tendon injuries. It also looks at complications in treatment, such as bone-grafting problems, infectio, and internal fixations.
