Jennie Naidoo BSc MSc PGDip PGCE, Jane Wills BA MA MSc PGCE : Foundations for Health Promotion, 4e (Public Health and Health Promotion) before purchasing it in order to gage whether or not it would be worth my time, and all praised Foundations for Health Promotion, 4e (Public Health and Health Promotion):

0 of 0 people found the following review helpful. Five StarsBy Dawn W.Its an investment worth making and all health promotion practitioners should have a copy in their library.0 of 0 people found the following review helpful. Five StarsBy Jeff MauritsEasy read book that I needed for my class.

The new edition of the highly successful Foundations for Health Promotion continues to offer a wealth of information in a unique, user-friendly format. Containing over 300 artworks, tables and 'pull out' boxes, this helpful text covers the theory, strategies and methods, settings and implementation of health promotion. Applicable to a wide range of health

and social care professionals and anyone engaged with education about health and wellbeing. Comprehensive updating and expansion to reflect recent research findings and major organizational and policy changes. Clear structure and signposting for ease of reading and study. Wide choice of examples and illustrative case studies reflect the needs of a variety of professional groups in health services, local and municipal services and education. Interactive learning activities with indicative answers help readers consolidate their learning. Comprehensively updated and expanded to reflect major organizational and policy changes. Interactive learning activities with indicative answers at the end of each chapter. 'Pull out' boxes illustrate recent research findings and case studies of practice.

"This is a comprehensive, user-friendly book, discussing the foundations for health promotion practice using many relevant practical examples, activities and discussion points... This book would comprise a useful resource for those wishing to develop their health promotion practice by considering the theory, policies and principles behind the practice of health promotion." *Journal of Human Nutrition and Dietetics*, 2009 "The text includes interactive exercises that are designed to encourage readers to reflect on their values, debate the issues and apply their knowledge and understanding to practice situation. In summary, this is a comprehensive, user-friendly book, discussing the foundations for health promotion practice using many relevant practical examples, activities and discussion points." *Foundations for Health Promotion*, J Naidoo.
