Walter C. Chop, Regula H. Robnett : Gerontology for the Health Care Professional before purchasing it in order to gauge whether or not it would be worth my time, and all praised Gerontology for the Health Care Professional:

-- Perfect text for an introductory or interdisciplinary gerontology course-- Contributors include leaders from respiratory therapy, occupational therapy, nutrition, law, medical science, philosophy, and pharmacy-- Focus is on multidimensional aspects of aging and caring for the elderly patient-- Each chapter contains behavioral objectives, key

terms, chapter outline, chapter summary, multiple-choice review questions, and learning activities
