John Salka : The Engine Company before purchasing it in order to gage whether or not it would be worth my time, and all praised The Engine Company:

0 of 0 people found the following review helpful. Good read for any firemen who loves all aspects of ...By Juan Carlos FernandezI've been reading reviews on here about this book and I have to tell you I don't agree at all. The book is very straight forward about all aspects of engine company ops. It is not going to be extremely specific in terms of SOPS or SOGS because every department has their own way of serving the area that they cover. I can say that it is written and edited well and takes you deeper into Engine work and why it is one of the most important if not the most important unit on any fire scene. Good read for any firemen who loves all aspects of the fire service.0 of 0 people found the following review helpful. Must buyBy Alan FryeA must read for any engine company firefighter. I've learned a ton from reading this0 of 0 people found the following review helpful. Great book, good read and has plenty of lessons ...By DaveGreat book, good read and has plenty of lessons you can implement while teaching your dept. Book was in

mint condition and shipped quick, will buy from seller again.

In his new book, Battalion Chief Salka, a nationally recognized speaker and author with years of service in several career and volunteer departments, looks at both the similarities and differences in the engine company operations practiced by fire departments throughout the United States and discusses in detail the equipment, staffing, and operations of engine company firefighters at structural fires and emergencies in urban, suburban, and rural settings. In this book, Salka teaches readers: * The abilities and limitations of engine companies, depending on equipment, staffing, and water supply * To execute the tactical missions of engine companies * The importance of mastering engine company functions for successful fire attack.

About the Author John Salka is a 29-year veteran of the FDNY and is a battalion chief in the Bronx, where he is the Battalion Commander of the 18th battalion. Chief Salka is a nationally recognized speaker and trainer, lecturing and instructing at local, state, and national fire service conferences on an array of subjects. In addition to these presentations, he leads a team of hands-on instructors that delivers dynamic training programs on firefighter survival, rapid intervention, and other bread-and-butter-type tactics to firefighters across the United States and Canada. Chief Salka is an accomplished author and a member of many fire service organizations.
