The accompanying CD-ROM features customizable tools and forms that are easy to modify, print, and fill out. This convenient format allows therapists to carry risk management tools with them at all times! Who will benefit? Physical therapist managers Directors of physical therapy Risk managers Directors of human resources Directors of quality/patient safety Staff development specialists

About the Author Stuart H. Platt, PT, MSPT, has been a licensed physical therapist for over 18 years and has practiced in a variety of clinical settings. His company, Appropriate Utilization Group, provides utilization management consulting services in the physical medicine and rehabilitation arena. Prior to starting his consulting company, Platt directed the physical therapy review division of a national physical medicine and rehabilitation (PMR) consulting firm and was the manager of a large outpatient physical therapy clinic. Dinah Brothers, RN, JD, practices administrative/regulatory law focusing on licensing issues for healthcare professionals. Prior to entering private practice, Dinah worked as a Senior Staff Attorney for the Texas Medical Board litigating cases against Texas physicians for violations of the Medical Practice Act. After gaining invaluable insight into the operations of regulatory boards, Dinah turned her focus toward defending healthcare professionals in disciplinary proceedings before their respective licensing boards. Prior to attending law school, Dinah worked as a registered nurse for ten years.
