A must own for docs who have estheticians working for them!By Daniel M. SiegelSusanne Warfield is the sharpest, brightest and most dynamic esthetician/esthetician trainer in the world today. She is the editor of the PCI Journal aimed at the professional esthetician and she more than any other single individual has worked to raise esthetics from a trade to a profession. If you are a doc thinking of having an esthetician in your practice or an esthetician thinking of getting a job in a medical office, you must read this book. This is the only "manual" for getting up and going in this growth industry. If this book were retitled as a "Dummy's Guide to Physician Practice Based Estheticians" or "A Dummy's Guide to Physician Practice Based Estheticians" it would probably be a best seller.Daniel M.
