**From American Psychological Association (APA) : The Evolution of Psychology: Fifty Years of the American Psychologist** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Evolution of Psychology: Fifty Years of the American Psychologist:

This volume comprises 50 key articles reprinted from the premier journal of the American Psychologist. Articles in three categories, science, professional practice and public welfare document this period of creativity and growth in psychology. The volume brings together contributions to the journal during its 50 year history and in so doing gives readers a glimpse of the evolution of psychology as an academic discipline.
