John V Forrester MBChB FRCS(ed) FRCS(Glasg) FRCOphth FRCP FMedSci FRSE, Andrew D. Dick BSc MB BS MD FRCP FRCS FRCOphth FMedSci, Paul G McMenamain BSc(Hons) MSc(MedSci) PhD, William R. Lee CBEMD, Andrew Dick, Paul McMenamain, William Lee : The Eye: Basic Sciences in Practice before purchasing it in order to gage whether or not it would be worth my time, and all praised The Eye: Basic Sciences in Practice:

A new edition of the only compact and all-embracing textbook of basic science for trainee ophthalmologists. The only comprehensive book of this type for trainee ophthalmologists. Other books available only cover individual scientific

areas, such as anatomy and biochemistry. Attractive two-colour page design with clear diagrams and text boxes make this a much more accessible book to learn from than many postgraduate textbooks. Presents in a readable form an account of all the basic sciences necessary for an understanding of the eye - anatomy, embryology, genetics, biochemistry, physiology, pharmacology, immunology, microbiology and infection and pathology. Updated throughout, especially in the areas of immunology, genetics and microbiology

About the Author John Forrester, Medical School, Aberdeen, Scotland; Andrew D. Dick, Medical School, Aberdeen, Scotland; Paul McMenemy, University of Western Australia, Australia; and William Lee, Western Infirmary, Glasgow, Scotland
