What a waste, just a bunch of ekg strip, no answers, no diagnosis. What's the point. I should have read the 1 other review.
5 of 6 people found the following review helpful. AwfulBy Brooke BuenaventuraSuch a waste of money, I thought it would give explanations and diagnosis of each keg. All it is, is a bunch of blank ekg strips without answers or anything. Graphic s are horrible.

The ultimate library of real 12 Lead EKG's. More than 100 EKG's and simple rules of interpretation. Compiled by a field medic with more than 25 years of EMS education. "A must have..." -(CCPP) Critical Care Paramedic
