Theodore H. Blau, Fred L. Alberts Jr. : The Forensic Documentation Sourcebook: The Complete Paperwork Resource for Forensic Mental Health Practice before purchasing it in order to gage whether or not it would be worth my time, and all praised The Forensic Documentation Sourcebook: The Complete Paperwork Resource for Forensic Mental Health Practice:

0 of 0 people found the following review helpful. DetailedBy EgyptianWarriorAnointedQueenThe book comes with basic forms and information for the beginner in documentation to get a grasp of the wide ranges of procedures and protocols when documenting details regarding various cases. I would recommend this book. good starting point0 of 0 people found the following review helpful. Not what I neededBy Nate PhiloPages of forms that aren't going to make

your job easier 0 of 0 people found the following review helpful. not greatly helpful By Robert W. Smith for anyone who has given any thought to getting or staying organized while conducting forensic services, they've already generated most of these forms. i didn't find all that much in the way of direct aids to the practice of forensics. probably worth the purchase, used.

All of the requisite forms forensic psychologists need in one compact volume a crucial time-saver for mental health professionals in today's complex legal system From child custody battles to competency hearings, the role of the psychologist in law is growing rapidly. Whether working in the legal context as an expert witness, evaluator, or consultant, it is necessary for the mental health professional to maintain a very high standard of documentation. This requires a detailed knowledge of a large amount of forms, as well as their correct preparation. Now fully updated and revised, *The Forensic Documentation Sourcebook, Second Edition* provides the most useful and current forms for accurate and comprehensive documentation and record keeping. These ready-to-use forms will save you and your practice hours that would otherwise be spent creating and collating them, freeing you to devote more energy to the important matters of the case you are working on. A companion CD includes all documents in Word format so you can customize them according to the unique needs of your practice. Covering every aspect of forensic mental health practice, this fully revised Second Edition also includes: Two new chapters containing more than twenty forms for family law consultation and neuropsychological assessment Completed copies of key forms illustrating the type of information required Clear, concise explanations of the purpose of each form-including when it should be used, with whom, and at what point in the examination
