Definitely helped me pass the examsBy McElligot's PoolI found this book very helpful in preparing for the state and federal licensing exams for long-term care administrators. The book is full of questions similar in style and substance to what appears on the actual exams. Someone advised me to

prep for the exams by reviewing as many exam-style questions as I could - to get a feel for how the questions tended to be worded and what they focused on. That was good advice and this book provided several hundred sample questions. I've read some reviews that tut-tut James Allen's books as being "old school," but - hey - he was a driving force in the original group that wrote the exam questions. In school, it was usually wise to "take the instructor who wrote the book". Well, Allen is the instructor who wrote the test - so prepping for the test using his materials seems a no-brainer to me. 9 of 9 people found the following review helpful. Passed the Federal on the first try! By 1 busydad An absolute necessity for studying to take the Federal exam. All examples are from previous tests and cover general and specific situations and questions pertaining to running a safe and successful nursing, convalescent, or rehab center. While not specific for any state examination, it still is a wealth of questions and answers for the license candidate. I highly recommend it! 7 of 7 people found the following review helpful. One of the best I have used for license prep. By Customer I passed the first time using this book. Worked through the practice test until I scored 85-95. scored a 90 on the test. One of the best I have used for license prep.
