David W. Balsiger, Charles E. Sellier : The Lincoln Conspiracy before purchasing it in order to gage whether or not it would be worth my time, and all praised The Lincoln Conspiracy:

0 of 0 people found the following review helpful. The Title Says It AllBy kaiservantThis book appears to be well researched and documented; but I have over 30 other books about Lincoln and I find it strange that none of the other authors (many of whom are eminent historians and scholars) espouse or even credit this conspiracy theory which has been around for the past century and more.0 of 0 people found the following review helpful. The Lid of Secrecy Remains In-SituBy CarlThis is the granddaddy of all books on the Assassination of Lincoln. Balsiger and Sellier take the reader into the dark and seedy places where the faint-hearted would never travel to. There is an overwhelming abundance of evidence to show that the pseudo-historical account of the assassination of Lincoln we all were SPOON-FED was a blatant lie. This book should have been required reading in high schools and universities years ago, instead another coverup/conspiracy by YOUR TRUSTED GOVERNMENT clamped a lid of secrecy on the Sunn Classics movie of the same name placing it in the National Archives; the public is not allowed to review the movie, Langley would be a lot easier to gain entrance to than this movie that frightened shadowy government forces into taking negatory actions against the authors and their film!1 of 1 people found the following review helpful. It's interesting how we think we know what happened during ...By CustomerIt's interesting how we think we know what happened during the civil war era and yet there is a whole different reality of events. It's a must read as far as I'm concerned.
