David Fitzpatrick : The Medical Manager Student Edition, Version 10.31 before purchasing it in order to gage whether or not it would be worth my time, and all praised The Medical Manager Student Edition, Version 10.31:

0 of 0 people found the following review helpful. Happy customerBy Aquarian DreamsVery glad to receive this.0 of 0 people found the following review helpful. but I do not like that you cannot really "practice" the stepsBy DianeThis book is required for one of my classes, but I do not like that you cannot really "practice" the steps. Once you enter something and save it, you cannot undo it. Some exercises are hard to follow and give you "tips" AFTER you have completed the exercise. I have a study buddy and we both agree that it is hard to follow at some points.0 of 0 people found the following review helpful. Five StarsBy CustomerPerfect item and transaction !!!!! Thanks !!!!

The Medical Manager has been an indispensable workflow management tool for healthcare providers for over 25 years. This new Student Edition provides a step-by-step approach to familiarizing learners with computerized account

management using The Medical Manager. Once you master The Medical Manager system, you will have the confidence and skills to be successful using any office management software.

About the Author David Fitzpatrick is a former Navy healthcare administrator who earned his BBA in Health Services from National University in San Diego, California and his MS in Computer Education from Johnson and Wales University in Providence, Rhode Island. A Certified Microsoft Professional, he also holds Massachusetts teaching licenses in both Business and Instructional Technology. David's 20 years of teaching and educational leadership includes performance in industry as Gateway's Training Team Leader for New England, and in academia as college and career school faculty. Currently, he is a project manager with Electronic Health Records of Rhode Island where he trains medical practices in practice management and electronic medical records software. A proponent of instructional technology and total quality management, David's professional interests also include collaborative and distance learning. He effectively uses synergistic strategies of blending traditional teaching methods with today's learner-centered, teacher-facilitated instructional technologies in real and virtual classrooms. He recently became honorary faculty in the Alpha Beta Kappa honor which recognizes America's private career colleges and schools. David Fitzpatrick is member of the National Business Education Association and the International Society for Business Education.
