Phyllis G. Glick : The Mushroom Trailguide before purchasing it in order to gage whether or not it would be worth my time, and all praised The Mushroom Trailguide:

0 of 0 people found the following review helpful. Mushroom Trail Guide --is a must to have with you on the trail.By Kathleen A DeanGrandson Garrett - is getting so much use out of this book. It is always with easy reach when he is going for hikes.0 of 0 people found the following review helpful. Easy to useBy Stanley V.I have this book in my Library of Mushroom Books. Easy to read and understand ... with many edible mushrooms ~ with illustrations ~ and a good information on how to prepare your find after a Foray. Actually just bought another copy.2 of 2 people found the following review helpful. better than photographsBy A CustomerThis is an excellent guide for beginners. It makes no pretense at completeness. The drawings focus on the distinctive characteristics of the subject mushrooms. unlike photos, which give equal weight to features which do and which do not distinguish one from another. ALWAYS HEED THE FIRST RULE OF MUSHROOM FORAGING -- WHEN IN DOUBT, DON'T.

Narrow Sm Quarto, 1991, PP.247, An Excellent Guide For The North American Mushroom Hunter Or Naturalist
