Rudolf Klein : The New Politics of the NHS: The Epidemiologically Based Needs Assessment Reviews, Second Series before purchasing it in order to gage whether or not it would be worth my time, and all praised The New Politics of the NHS: The Epidemiologically Based Needs Assessment Reviews, Second Series:

'This book is not a history of the NHS. It does not attempt to present a comprehensive account of events, nor does it attempt to examine all the policy issues or controversies that have arisen since 1948. Instead it is highly selective. It concentrates on those issues that seem to best illuminate the analytic themes and to provide the most insight into political processes.' - Rudolf Klein, in the Preface from the Fourth Edition.

From reviews of previous editions: ' A valuable insight into the discussions and decisions that determine such an important aspect of our daily life.' CANCER CARE NEWS
