From Oxford University Press : The Oxford Handbook of U.S. Health Law (Oxford Handbooks) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Oxford Handbook of U.S. Health Law (Oxford Handbooks):

The Oxford Handbook of U.S. Health Law covers the breadth and depth of health law, with contributions from the most eminent scholars in the field. The Handbook paints with broad thematic strokes the major features of American healthcare law and policy, its recent reforms including the Affordable Care Act, its relationship to medical ethics and

constitutional principles, and how it compares to the experience of other countries. It explores the legal framework for the patient experience, from access through treatment, to recourse (if treatment fails), and examines emerging issues involving healthcare information, the changing nature of healthcare regulation, immigration, globalization, aging, and the social determinants of health. This Handbook provides valuable content, accessible to readers new to the subject, as well as to those who write, teach, practice, or make policy in health law.

"This Handbook offers a comprehensive analysis of the changing landscape of American healthcare...The chapter authors capably describe and explain the new legal dynamics of health care in both the public and private sectors, and the editors pull together in one volume a range of informed viewpoints on what has changed in health law and what changes to look for in the future. Our understanding of American health care, a unique social sector with a huge impact on our population and economy as well as significant global ramifications, is greatly advanced by this Handbook." (From the Foreword) Kathleen G. Sebelius "This book is now the definitive reference on U.S. health law in the post-Affordable Care Act era. It is an essential resource for legal professionals, policy-makers, executives, and advocates - indeed, for anyone who wants to stay up-to-date on this changing landscape." -Donald M. Berwick, President Emeritus and Senior Fellow, Institute for Healthcare Improvement and former Administrator, Centers for Medicare and Medicaid Services "This Handbook offers a comprehensive analysis of the changing landscape of American healthcare...The chapter authors capably describe and explain the new legal dynamics of health care in both the public and private sectors, and the editors pull together in one volume a range of informed viewpoints on what has changed in health law and what changes to look for in the future. Our understanding of American health care, a unique social sector with a huge impact on our population and economy as well as significant global ramifications, is greatly advanced by this Handbook." -(From the Foreword) Kathleen G. Sebelius, United States Secretary of Health and Human Services (2009-2014), Governor of Kansas (2003-2009) "The Oxford Handbook of U.S. Health Law is an exceptionally valuable resource-comprehensive, detailed, and up-to-date-for anyone interested in the legal dimensions of health policy and the political and ethical questions in health care that we face today." -Paul E. Starr, Professor of Sociology and Public Affairs, and Stuart Professor of Communications and Public Affairs, Princeton University About the AuthorI. Glenn Cohen is Professor of Law at Harvard Law School, and Director of the Petrie-Flom Center for Health Law Policy, Biotechnology, and Bioethics. He is one of the world's leading experts on the intersection of bioethics (or medical ethics), and the law, as well as health law. Professor Cohen is the author of more than 80 articles and chapters, and his award-winning work has appeared in leading legal law review journals including: Harvard, Stanford, Cornell, and Southern California; medical journals including the New England Journal of Medicine, and JAMA; bioethics journals including the American Journal of Bioethics, the Hastings Center Report; and for public health, the American Journal of Public Health. He is the editor several books including The Globalization of Health Care: Legal and Ethical Issues (Oxford, 2013), and the author of Patients with Passports: Medical Tourism, Law, and Ethics (Oxford, 2014).Allison K. Hoffman is a Professor of Law at UCLA School of Law and a Faculty Associate at the UCLA Center for Health Policy Research. She is an expert on health law and policy and teaches in the areas of health law and policy, torts, and insurance. Her research focuses on some of the most important legal and social issues of our time, including health insurance regulation, the Affordable Care Act, Medicare, retiree healthcare expenses, and long-term care. Her writing has appeared in leading law reviews and health policy journals. She serves as Chair-Elect of the Insurance Law Section of the Association of American Law Schools. Prior to joining the faculty at UCLA, she was a fellow at Harvard's Petrie-Flom Center for Health Law Policy, Biotechnology, and Bioethics. She also practiced law at Ropes Gray, LLP, where she counseled clients on health care regulatory matters, and provided strategic business advice to health care companies as a consultant at the Boston Consulting Group. William M. Sage is James R. Dougherty Chair for Faculty Excellence in the School of Law and Professor of Surgery and Perioperative Care in the Dell Medical School, both at the University of Texas at Austin. He teaches law classes on legislation and regulation, health law, and antitrust, and interdisciplinary classes in professional ethics, health policy, and medical-legal services for vulnerable populations. He has published over 200 articles, essays, and book chapters, and has edited three books. His core areas of expertise are health care reform, delivery system redesign, antitrust and competition policy, medical liability and patient safety, health care quality and information, insurance coverage, and the regulation of health professionals. He is an elected member of the National Academy of Medicine (IOM), is an elected fellow of the Hastings Center on bioethics, and serves on the editorial board of Health Affairs. After receiving his medical and law degrees, he completed his internship at Mercy Hospital in San Diego, served as a resident in anesthesiology and critical care medicine at Johns Hopkins, practiced corporate and securities law at O'Melveny Myers in Los Angeles and, in 1993, headed four working groups of President Clinton's Task Force on Health Care Reform.
