Joseph E. Townsend, Winborn E. Davis : The Principles of Health Care Administration (Revised and Updated August 2010) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Principles of Health Care Administration (Revised and Updated August 2010):

The Principles of Health Care Administration has been revised and updated by author Joe Townsend. This book continues to be the most comprehensive long-term care publication available today. It is a reference for LTC students, NHA candidates, practicing administrators, and a must for college and university LTC professors. All five Domains are discussed in detail and there is a listing of Acts, Rules, and Regulations for long-term care. A complete list of the Resident's Bill of Rights is included in the book. If you are studying for the NAB NHA licensing examination, you need this publication. Introduction~ Updated statistics on Medicare and Medicaid beds and facilities assisted living, NORC communities, Point of Service, staffing shortagesDomain I - Resident Care and Quality of Life~ Medication Aides, code status, restraints, Nurse Practitioners, glaucoma, vestibular disorders, Fall Prevention, dementia, resident adjustment programs, resident/family councils, communication regarding Medicaid/Medicare benefits, notice of resident rightsDomain II - Human Resources~ Electronic mail, turnover issuesDomain III - Finance~ Resource Utilization Groups III and IV~ Recovery Audit Contractors~ Medicaid Integrity~ Program, accelerated depreciationDomain IV - Physical Environment and Atmosphere~ Smoke detectors, ramps needs/preferences of
