From S. Karger : The Scientific Basis for Vitamin Intake in Human Nutrition: EANS Workshop, Cannes, May 1994 (Forum of Nutrition, Vol. 52) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Scientific Basis for Vitamin Intake in Human Nutrition: EANS Workshop, Cannes, May 1994 (Forum of Nutrition, Vol. 52):

Recent research has shown that some vitamins and beta-carotene may play an important role in the prevention of diseases such as cardiovascular disease, cataract formation and neural tube defect. This book provides a summary of the evidence and discusses its implications for human health.
