**Mary Ann Foster : Therapeutic Kinesiology: Musculoskeletal Systems, Palpation, and Body Mechanics** before purchasing it in order to gage whether or not it would be worth my time, and all praised Therapeutic Kinesiology: Musculoskeletal Systems, Palpation, and Body Mechanics:

0 of 0 people found the following review helpful. Required for classBy LexiGreat text book... required for kinesiology class... def helped with understanding the fundamental concepts0 of 0 people found the following review helpful. Five StarsBy Silvana J. MacHicaoGreat book! Beautiful illustration and compacted easy to read information. Highly recommend it!0 of 0 people found the following review helpful. Five StarsBy CustomerFantastic book!

Therapeutic Kinesiology has been awarded the prestigious 2013 American Medical Illustrators Award to Excellence! Therapeutic Kinesiology provides practical and relevant applications of the study of human movement to the practice of massage and bodywork. One of the first kinesiology texts specifically geared to massage therapists, it's actually three books in one: a kinesiology text, a palpation text, and a body mechanics text. Focused on experiential learning, it is replete with self-study exercises including many specifically designed to help practitioners avoid work-related injuries. It offers clear, friendly, and easy-to-read coverage of the skeletal, muscular, and neuromuscular systems; joint motion; biomechanics; posture and gait; basic palpation skills, the thorax and respiration; the ankle, foot, knee, hip, pelvis, spine, head, neck, shoulder girdle, arm, hand, and more. Hundreds of color photos and anatomical images appear throughout, along with many practical tips including expert guidance on client education.
